## Relax by the Water & Take a Dip!

Secchi Dip-In 2017 is approaching quickly and we'd love your help to make it a success! Planning to enjoy time by the lake this summer? A Secchi disk reading takes just a few minutes, is a great way to ensure those waters stay a healthy place to have fun, and is simple enough that everyone can participate.

Started in the United States, the Secchi Dip-In is now an international effort in which volunteers produce a "snapshot" of water transparency around the world. Secchi disk readings can be submitted online at [www.secchidipin.org](http://www.secchidipin.org) or via the Lake Observer mobile app (<https://www.lakeobserver.org>).
