

June 2016

Colorado Lake and Reservoir Management Association

Are you ready for summer?

Day on the Rez, City Park in Denver

Save the date – July 20th

www.clrma.org

Volunteer Lake Monitoring - June is here and so is the official start to the 2016 volunteer lake monitoring program. Folks are out and about collecting water clarity data. Thank you to all of our wonderful volunteers.

2017 NALMS Symposium Planning Update – Next meeting is June 21st at Metro Wastewater Reclamation District. The plan is to start off with a Host Committee meeting to talk more about venue, logo, and other items. Then we will break up into the various sub-committees to work on various items. If you are on a committee or just want to help out one time, please come. We will meet from 9am to 1pm, and CLRMA will provide lunch. Contact Steve Lundt (slundt@mwrd.dst.co.us) to get on the Metro visitor's list. If you are a sub-committee chair, please get organized and be ready to put your committee to work. All of the planning information is being shared at Dropbox (<https://www.dropbox.com/sh/215wvqnumi6xqil/AAAAGJrkFOnopXZEPezrIVga?dl=0>).

Day on the Rez - This year we have picked City Park and Ferril Lake. Registration and more info will be out soon. You will get a chance to learn more about urban stormwater issues, goose management, reuse water, and be able to meet with vendors. This is a fun event CLRMA puts on every

other year so make sure you take advantage of this opportunity to learn more about urban lake management.

[Job Opening \(Watershed Specialist\)](#) - The Middle Colorado Watershed Council (MCWC) is looking to hire a new Watershed Specialist. The job announcement is attached and the deadline for applications is July 6th.

[Lake Appreciation Event at Barr Lake \(July 16\)](#) - See the attached poster of this great event. This a fun opportunity to celebrate Lake Appreciation Month and get a free lunch out of it. Plus, there are fun, free activities in the afternoon for the volunteers.

[2016 Secchi Dip In \(July\)](#) - The goal this year is to send in 50 Secchi depth readings to the Dip In. Last year, Colorado was poorly represented. We should easily meet this goal with the amount of CLRMA members that measure water clarity during the summer months. Please take a few minutes to send in your July water clarity data to the dip in (www.secchidipin.org). Attached is the 2015 summary report. Take a look and see how you can help with this effort to collect water clarity data across North America.

[Upcoming State Park Events](#) - Ridgeway State Park 2nd annual smallmouth bass fishing tournament June 4-12, Sunset pontoon boat tour June 10th at Barr Lake State Park, Elkhead Reservoir fishing tournament, June 11-19, Colorado Bowfishing Tournament at Barr Lake, June 18th. More information and details about these lake events can be found at cpw.state.co.us/aboutus/Pages/Calendar.aspx. There are lots more events listed also for other state parks.

If you have anything that you would like to share with other CLRMA members, please send them to ColoradoLRMA@gmail.com. To learn more about CLRMA and what is going on, you can always go to www.clrma.org. The updated website is a great source of information. If you would like to see other lake/reservoir material up on the website or in the e-mail updates, please let CLRMA know.
